

Dear Sirs:

I am the Mayor of Craig Colorado and I am writing to you to respond to the attack on satellite radio. I purchased a new 2004 Avalanche this year and I can tell you that it has changed my life. I look forward to getting in this vehicle and driving just to experience the XM radio. I like it so much that I have wired my business with this service and I am enjoying my weekend time in my office as I work on things that I can't accomplish in the week. We live in a very rural area of Colorado and while I am a big supporter of shop locally I realize that I never will listen to the local station and my life is now one of the choices I can make. I encourage you to leave XM alone and allow the NAB to begin to participate in its abilities rather than try to squelch its existence.

Thank You David DeRose.
